CPSC 572 Music Network

By Steven Canon–Almagro and Nathanael Huh

What are our nodes and links

Nodes are song artists and Links are songs that they have worked on together. A linked song can come from a feature, and/or co-authoring an album.

Our Dataset

Drawing inspiration from the actor network. We will be using the Spotify API to get artist, song, and album data.

Questions we plan to ask
and why you should care?

Is the music industry just as connected as the movie industry?

What is the most well-connected artist on the Spotify platform?

Does the music industry have their own Kevin Bacon?

Do the top 500 artists collaborate amongst themselves more than with artists outside the top 500?
